25X1	9. At his request, I met with George Murphy, on the staff of the Joint Committee on Atomic Energy. Murphy wished	
	to restate his interest in the NATO security case, In keeping with his interest in NATO security cases and the Joint Committee queries to the Director on these cases in the past, Murphy has asked if we would keep him informed on this case since he thinks it is highly likely	25X1A
	that atomic energy information is involved despite the fact that had no formal access to atomal information.  Murphy also expressed interest in the "Green Beret" case. I told him only that this was an Army case and not one which was run by the Agency, and that the Agency (contrary to some press allegations) had not recommended physical termination.  I briefed Murphy on the fact that the Chinese would probably have another nuclear test probably in September and told him I would keep him informed of any additional information on this.	25X1A
